

# The “Wheels & Wings”

## Event at Middle Wallop on the 12<sup>th</sup> July

This is the second time we have attended this event to fly the flag so to speak for the BMFA by putting on a static display. The stand was manned by David Smith, David Durnford, Phil and Iris Stevens and me.

As can be seen several models were on display to create interest in all forms of the hobby from Fixed wing aircraft to Helicopters and Gliders.

Many potential modellers showed interest and asked how to get started. All were informed of the “Club Finder” available on the main BMFA website and were advised to find a local club and contact them for help.

In addition to this quite a few past modellers approached us as that were considering returning to the hobby now that families had grown up giving them more time for themselves. All in all, we found this a worthwhile exercise to promote the hobby in particular for the young, much needed to join our ageing community.

Any clubs out there that are approached please follow up any enquiries to ensure the hobby as a whole benefit from exercises like this.
